Project Name	Kashti 2.0	Date	11/21/20	Project Manager	Cody Uhi

Project Summary (including redirection)	Key Tasks	Progress	Status	Finish
Create a secure, interactive web-based User Interface (UI) that offers full functionality for the Brigade event-driven scripting platform by May 2021.	UI demo for presentation	70%	On Track	
	Create MVP for typescript SDK	15%	Possible Delays	
	Create a 3-minute presentation for the class	100%	Complete	
	Completing the core graphing portion of the	100%	Complete	
	Brigade Authentication	80%	On Track	
	Write a self-reflection of the project	40%	On Track	
		0%	Future Task	
		0%	Future Task	

Tasks Completed	Tasks Delayed	Tasks Planned
Presentation given Receive mentorship from sponsors Build architectural diagrams for SDK	Progress on the SDK	Finish the visual prototype Complete Authentication Work on the SDK

Team Members -- Billable Hours			**Key** Project Risks and Issues		
Name	Role/Task	Hours	Type	Risks or Issue Description	
Cody Uhi	Created/gave presentati	13.0	Issue	As per armour, we don't know what we don't know about the project yet because we still need to perfom significant work on it.	
Derryck Dunn	Finalizing the structure	10.0			
Daniel De La O	Polish the UI and meet	10.0			
Spencer Sundrud	Security information for	10.0	Issue	Organization/work process for the SDK is not well defined. How do we most efficiently work on this single thing with multiple people working at once?	
Stephen Kendall	Charted SDK; coordinat	8.0			
			Issue	There is a level of expertise that exists among team members, but the knowledge gap between different areas of the project mean that either team members need to collaborate better or receive training/skill in other areas of the project.
