▶ Performance, cost, and schedule cannot be specified independently; at least one of the three must depend upon the other

▶ Efficiency is inversely proportional to universality [the reuse problem]

▶ The most reliable part on an airplane is the one that isn't there

▶ If the politics don't fly, the hardware never will

▶ In introducing technological and social change, how you do it is often more important than what you do

▶ There is no such thing as a purely technical problem
